## Technical Skills

- ✓ Java
- ✓ SQL
- ✓ Web Tech
- ✓ React Js(Basic)

## Personal Skills

- ✓ Quick Learner
- ✓ Leadership
- ✓ PositiveAttitude
- ✓ Team Player
- ✓ Communication
- ✓ Presentation

## Award

- ✓ Best Paper Award at 3rd National Conference

## Hobby

- ✓ Watching Tv
- ✓ Playing Chess

## Education (2022 to 2025)

Completed Bsc Computer Science in M.G.R College of Arts and Science (Periyar University)

## Languages

- ✓ English
- ✓ Kannada
- ✓ Hindi
- ✓ Tamil

## Objective

To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

## Project

- ⇨ Developed a Python-based child safety monitoring system with keylogging, screenshot capture, webcam monitoring, and real-time email alerts. Ensured secure data handling using encryption, automated file management, and background execution to help parents detect cyber risks and safeguard children from online threats.

**Technical Proficiency:**

- ➢ strong working knowledge of Java with a object-oriented programming concepts such as inheritance, encapsulation, polymorphism, and abstraction. I am comfortable working with core Java features including collections, exception handling, and basic multithreading. I have applied my Java skills in practical projects.
- ➢ SQL and relational database concepts such as tables, primary keys, and foreign keys. I am able to write basic queries including SELECT, INSERT, UPDATE, DELETE , Simple joins and aggregate functions for data retrieval. This theoretical knowledge helps me work effectively with structured database systems.
- ➢ HTML, CSS, and JavaScript, with the ability to create well-structured and semantic web pages using HTML and implement styling and layouts using CSS. I am skilled in responsive design techniques and CSS properties to build visually appealing interfaces. Additionally, I possess practical knowledge of JavaScript, including variables, functions, and DOM manipulation, to add dynamic behaviour and interactivity to web pages.
- ➢ React, including building functional components and utilizing core hooks such as useState and useEffect. I am capable of creating interactive and dynamic web interfaces, managing component state, and handling basic side effects in React applications. This experience has helped me for modern frontend development practices and component-based architecture.

I hereby declare that all the above written particulars are true to the best of my knowledge and belief.
